- · Recycled primary backing
- · Easy cleaning with water only

Product Information

The offset tufted quality creates a homogeneous surface appearance. The delayed regeneration behavior of the fibers is typical for the loop quality. Impression marks recover after a short period of use.

Installation Instructions

The precise seam cut is carried out professionally using a steel ruler and a laying knife with a trapezoidal blade. The use of pile scissors is recommended for processing cut studs to ensure a flawless appearance.

Made in Europe (production according to EU standard)

Data status 30.06.2025. Subject to changes due to technical advancements.
